

Session 2B (Workshop)
4th Jan 12:00-1:00
Session Chair: Dr. Sheela Thiruvadi

W01 Emerging Technologies - Blockchain and India preparedness

Saroj Koul, Jindal Global Business Schools, skoul@jgu.edu.in

In the present era of immense digitization and speedy technological evolution, the business canvas is being redrawn. A quick shift from the conventional ways to carry out a transaction to the digital platform may be observed in every field from banking to education to land records. In India, the Blockchain revolution has started. This two-part workshop will provide succinct information on the fundamentals of Blockchain, examples as to how it can be leveraged for faster growth in businesses, and same time ensure transparency and in being cost-friendly for consumers. In the second part, several examples for the preparedness in India and areas it can penetrate shall be showcased.
